About us

HostyURL is a simple and reliable free URL shortening platform designed to make online link sharing faster and more professional. We help users transform long, complicated URLs into short, clean, and easy-to-share links within seconds. With features like custom aliases, click tracking, QR code support, and secure HTTPS redirects, HostyURL is built for marketers, bloggers, businesses, and everyday internet users. Our mission is to simplify link management while providing a smooth and user-friendly experience without requiring sign-up or payment. At HostyURL, we focus on speed, simplicity, security, and helping users share their content more effectively.
