

MockitX

Customized Mock Interview
Online Platform

MockitX

MockitX is India's customized mock interview platform, built to help job seekers prepare for real interviews with confidence.

About us

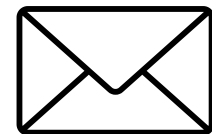

MockitX is India's customized mock interview platform, built to help job seekers prepare for real interviews with confidence. Founded by Vardaan Singh Pawar, the platform connects candidates with experienced HR and technical mentors for personalized interview sessions based on their target company, job role, resume, and experience. Unlike generic practice tools, MockitX delivers realistic interview simulations, structured feedback, and actionable insights that help candidates improve before the interview that truly matters. Driven by real-world experience and a passion for empowering job seekers, MockitX is transforming interview preparation across India.
